

## ***Cathedral voices***

***I made myself a dream once, going away  
Passing through a valley where mighty tigers live***

***Cathedral voices calling, deep within  
Mystery sounds from places near edge of time***

***You may go, where the mighty tigers live  
You may feel how eternal life gets near***

***Reaching out for hands slowly drifts apart  
Cathedral voices leading me into life***

***Cathedral voices calling deep within  
Mystery sounds from places near edge of time***

***You may go, where the mighty tigers live  
You may feel how eternal life gets near***

***Reaching out for hands slowly drifts apart  
Cathedral voices leading me into life***
