

## *Lady of life*

*There is a lady who will fight for your rights  
Even when the darkness surrounds her house at night  
I want to know I want to know her*

*Just a simple thought about human rights  
Is more than enough to make it all explode  
I want to know I want to know her  
I want to know her*

*I know she will, reach her goal, until her fight is won  
I know we will reach her soul  
until her fight is won  
and all human rights  
Don't let her down*

*There is a lady who will fight for your rights  
Even when the darkness surrounds her house at night  
I want to know – I want to know her.*

*She is the lady of life,  
The voice without no fear  
So God hear my prayer.  
She is the lady of life.*
